**Value Added Course Preamble :**

Our college is committed to create an environment where students feel empowered to improve upon their learning behaviour and skills for which mere academic inputs is not enough. Thus, going beyond it, we are providing with Value added course on Stock Market Operations that contributes in their skill enhancement, capacity building and wealth creation.

Investing Provides financial stability, and the stock market plays an important role when it comes to generating returns which can beat inflation, stock market is a place where people buy/sell shares of publically listed companies.

Investment in stock market is a different ball game together and the majority of people mix trading and investment. While investing in the stock market one needs to learn fundamental analysis which is the study of economic analysis like fiscal policy, monetary policy, sectoral analysis, and companies quantitative and qualitative analysis. One also need to diversify investment in multiple sectors and companies with proper planning and asset allocation based on long term goals and objective to create wealth.

**OBJECTIVES:**

This course aim at giving a comprehensive understanding on the stock market operations in terms of its structure, trading, settlement procedures, processes and related components and the regulations, emerging challenges in the Indian Stock market.
